

# Google Workspace for Education

## Make every minute of learning count

Education Fundamentals is a suite of tools available at no charge that enables collaborative learning opportunities through a secure platform – featuring Google Classroom, Drive, Docs, Forms, Slides, Meet, Gmail, Calendar, Chat, and more.

### Collaborate

- Collaborate in real time with Google Meet, Docs, Sheets, Slides, Sites, and Jamboard
- Communicate with learners, educators, guardians, and administrators from anywhere with Google Meet, Chat, and Gmail
- Join virtual meetings directly from a Google Calendar event, email invite, Gmail, Docs, Sheets, Slides, or Google Classroom
- Enable an inclusive learning environment with individual accessibility settings that fit each student's unique learning style

### Productive

- Help educators save time with Classroom and Assignments by easily creating courses, organizing classwork, distributing tests, and sharing rich feedback
- Keep grading and feedback consistent and transparent with rubrics and a comment bank
- Help educators streamline workloads by posting and scheduling coursework and building to-do lists in Classroom
- Streamline classroom workflows by easily being able to find appropriate YouTube videos or use Picture-in-Picture view to boost multitasking

### Secure

- Rely on Google's data protection practices, which are in compliance with rigorous privacy and security standards and are audited by third parties
- Extend security to all your devices with mobile device management and get the same protections from any device
- Enable security key enforcement and 2-Step Verification for an extra layer of authentication
- Protect sensitive data in Gmail and Drive with automated Data Loss Prevention (DLP)

### Get the storage you need

Rely on ample storage with 100 TB of pooled cloud storage shared by your organization.

## Upgrade to premium tools

Pick what's right for your institution, depending on your needs:

[Education Standard](#) for security and analytics enhancements

[Teaching and Learning Upgrade](#) for tools to enhance instructional impact

[Education Plus](#) for an all-in-one solution, with advanced security, teaching, learning, and more.

[Learn more](#) about each edition.

# Google Workspace for Education

## Peace of mind with advanced security features

Stay ahead of the latest digital privacy and security threats and protect student data with Google's industry-leading security infrastructure.

### Proactive security

- **Prevent, detect, and remediate** incidents across Gmail, Drive, devices, and more in the security center
- Block more than **99.9% of spam, phishing, and malware** with Google's AI powered Gmail protections
- Automatically scan email attachments in a security sandbox to **prevent ransomware** attacks
- Gain **instant visibility** in a security dashboard to view rule violations, compromised devices, and more
- Get helpful tips and **custom recommendations** in your security health page to stay ahead of threats

### Holistic controls

- **Centralize control** in the Admin console, a unified tool for security, data, and device management
- **Identify, triage, and take action** on security and privacy threats with the security investigation tool
- Set context-aware access policies to **restrict access** based on user identity, location, device security status, and IP address
- **Define data regions** to limit or distribute data based on compliance requirements
- Prevent breaches with drive labels and trust rules to **proactively set rules** for sensitive file sharing

### Analytics and insights

- **Track usage** across your domain by analyzing **log event data** across Classroom, Gmail, Drive and more
- **Analyze trends** and form deeper insights using high performing, custom queries in BigQuery or templated dashboards made for education within Looker Studio

Reduce costs, improve security, and save time with [Education Plus](#), an all-in-one EdTech solution.

Get all of the functionality of Education Standard, tools that enrich and personalize learning, and more with Education Plus.

## Deepen every learning opportunity

The Teaching and Learning Upgrade provides enhanced capabilities and deeper product integrations to save time and enrich learning experiences.

### Make learning more personal

- **Transform teaching content into interactive assignments** that give students real-time feedback and automated hints with the help of AI in Google Classroom practice sets
- **Combine meaningful learning with educational videos** where student answers are instantly validated with interactive questions for YouTube videos\* in Classroom
- **Identify where students might need support** with class and student-specific insights in Classroom learning tools

\* Coming soon.

### Save time with integrated tools

- **Access your tools with a single sign-on**, including Classroom add-ons like Pear Deck, Kahoot!, and Nearpod
- **Enable automatic grading** and share practice set assignments with other educators in your domain
- **Encourage original thinking and identify missed citations** with unlimited originality reports, which compare work to public sources and your school-owned repository
- **Get an additional 100 GB of Drive storage** for each staff license added to your shared pool of 100 TB

### Build stronger connections

- **Connect your community** with up to 250 participants or live stream up to 10,000 viewers with Google Meet
- **Engage students better** with breakout rooms, Q&A, and polls
- **Make learning more accessible** with recordings, translated captions, transcriptions, and tile pairing,\* which makes it easier to focus on key participants
- **Enable smoother presentations** in Google Meet and Slides by viewing speaker notes and co-presenting with another educator

Reduce costs, improve security, and save time with **Education Plus** – your all-in-one EdTech solution.

Get all the functionality of the Teaching and Learning Upgrade, advanced security and insights, and more with Education Plus.

Google Workspace  
for Education

## Your all-in-one EdTech solution

Empower your school community with advanced security and insights and easy-to-use tools that enrich and personalize learning.

Consolidate your tech stack with a comprehensive EdTech solution.

### Strengthen security and insights

#### Prevent cyber threats before they emerge

- Prevent, detect, and remediate security incidents across your domain and get customized recommendations
- Block 99.9% of spam, phishing attempts, and malware in Gmail with AI-powered protections
- Get instant visibility into data loss prevention rule violations, compromised devices, external file sharing, and more

#### Centralize data and access management

- Manage privacy and security policies and control granular data and device settings in a unified tool
- Control who can access files, apps, and sensitive data by user identity, device security status, IP address, and more with context-aware access policies
- Support compliance with GDPR, FERPA, COPPA, and more while limiting data to the US or Europe

#### Develop insights with analytics and data visualizations

- Get real-time insights and visibility into how students turn in, perform on, and engage with assignments\*
- Analyze product usage and potential security threats with advanced queries and data visualizations

### Enrich teaching and learning

#### Personalize learning experiences

- Help students learn at their own pace and offer hints when they get stuck, with the help of AI, using practice sets
- Assign interactive questions for YouTube videos\* in Google Classroom
- Integrate and assign leading third-party tools and grade assignments by your preferred grading structure

#### Save time and simplify class management

- Create shareable class templates and classwork\* with pre-populated curriculum in Classroom
- Virtually visit a class and temporarily grant access to support staff as an Admin
- Review student work for originality against material online and your school-owned repository of peer matches
- Get an additional 20 GB of Drive storage for each paid license on top of the 100 TB of pooled cloud storage

#### Teach and learn from anywhere

- Deepen engagement with breakout rooms, Q&As, polls, live-translated captions, transcripts, and recordings
- Include up to 1,000 participants or live stream in Google Meet

# Google Workspace for Education

Compare key features across editions to find the right fit for your institution.
